

# Advanced Electrophoresis Solutions Ltd. signs Medispec as an exclusive distributor partner for India.

MON 06/02/2023 - 9:00 AM EST

**Cambridge, Canada, 6th February 2023 /** AES (Advanced Electrophoresis Solutions Ltd.) is a pioneer in designing and manufacturing high performance CEInfinite whole column imaging detection capillary isoelectric focusing (iCIEF) systems and critical reagents for the life science industry. With a comprehensive product line of instruments, proprietary cartridges, ampholytes, and pI standards they provide solutions to pharmaceutical companies globally to accelerate their pharmaceutical development. AES is pleased to announce their agreement with Medispec as the exclusive distributor of its products in India. Under the agreement Medispec will also become the provider of service and application support in the covered regions.

Medispec was founded way back in 1995. Since then, Medispec has grown into leading solution provider in the field of Life Science industry understanding the customers need and providing the highest level of customer satisfaction.

India is a global hub for biotechnology and innovation, leading in the manufacturing and production of biosimilar drug products and many approved vaccines including those for DPT, Measles and BCG. This partnership will allow AES' critical solutions to reach these many companies located in India with the goal of continuously improving customers' experiences in every aspect.
